MEMORANDUM FOR THE RECORD

SUBJECT: Luncheon Meeting with Mr. Conway and Mr. Murphy,  
Joint Committee on Atomic Energy

25X6

1. In connection with the upcoming luncheon meeting with Messrs. Conway and Murphy, of the staff of the Joint Committee on Atomic Energy

2. The basis of the Joint Committee staff's interest in these and related areas is the Joint Committee's responsibility with regard ✓ to agreements of cooperation between the United States and other countries with regard to the sharing of atomic energy information. With this as a basis for their interest we can anticipate questions along the following lines:

a. In view of the recent publicity with regard to Philby, Runge, de Vosjoli and other similar cases, what information does the CIA have regarding possible penetration of NATO (and more specifically French) security;

b. Who is responsible within the framework of the United States Government, of the protection of classified U.S. information which is made available to our NATO allies;

c. Bearing in mind the Joint Committee's concern regarding atomic energy information, what is the intelligence community doing to protect classified intelligence information which is made available to our NATO allies.

3. If it is determined that detailed answers to these questions are not to be provided to Conway and Murphy, this message should be imparted to them by the Director. In addition, it would be helpful if the Director can get across to Conway and Murphy (who in the final analysis are the originators of letters such as these which we have received on the Runge and De Vosjoli cases) that the best arrangement for our keeping the JCAE informed on matters of this sort is an informal arrangement between Mr. Maury and the members of his staff (who keep the Director currently informed as to their activities) and the JCAE staff. Conway and particularly Murphy are inclined not to accept statements unless they are confident that they are either authorized by or reflect the judgement of Mr. Helms.

STATINTL

4. It is suggested that [ ] of the nuclear energy section of OSI be present at the Monday luncheon. [ ] has had extensive contacts with Conway and Murphy, is compatible with them and is familiar with atomic energy matters of interest to the staff. If the Director desires to have someone present who can discuss the NATO security and related problems in detail, it is suggested that [ ] of CI Staff and Mr. Howard Osborne be present.
